

Trap-Eze™ Disposable Plaster Traps

Sanitary, convenient solutions for the capture and disposal of wet model trimming waste

- Economical trap systems designed to slow water discharge flow rate and allow plaster sediment to settle out of waste water
- Fast and easy installation and trap replacement
- No permanent traps to clean or messy liners to replace
- Made in the USA

New!

Trap-Eze BT Bottle Trap

The new Trap-Eze BT provides a convenient and easy to use bottle-style trap for permanent plumbing into the existing sanitary drain beneath the lab sink. The replaceable bottles feature excellent capacity for smaller labs and dental offices and are fast and easy to replace.

- Complete kit provides instructions and customizable 1 1/2" size plumbing and connectors for convenient hard-plumbing (requires a minimum 16" of height between the centerline of the sewer tail pipe and the floor of the cabinet)
- Complete system includes a 64 oz standard size clear plastic bottle, a pre-assembled trap body, and the plumbing connections typically required to fit the plumbing used in most dental office and dental lab sub-sink areas.

Made in USA

Original Classic Trap-Eze Disposable Trap

- Requires minimum 9" clearance between bottom of sink tail pipe and top of trap bucket for easy installation without tools
- All trap buckets feature high-strength plastic construction and permanently-sealed lids
- 3 1/2 gallon size (12 1/2" diameter x 11" H) ideal for intermediate applications
- 5 gallon size (12 1/2" diameter x 14 1/2" H) best for larger offices and labs with higher volume collection needs (space permitting)
- Two flexible hoses (1 1/2" ID x 1 3/4" OD x 20" long) conveniently connect trap to sink tail pipe and sewer tail pipe
- Flexible adaptor fitting for sewer tail pipe included for improved drain seal
- Complete kit includes sealed trap bucket, 2 hoses, and sewer tail pipe adapter fitting
- Refill includes trap and two plastic caps for sealing full trap
