Useful in Dental Offices and Laboratories, Medical Offices, Ceramic Clay and Pottery facilities. Beauty and Hair Salons*(with internal cartridge). Hobby, Craft, and Workshop areas, Industrial, Food Preparation and Jewelry Shops (with internal cartridge).

*To comply with municipal chemical and sediment discharge regulations.

- Economical trap systems designed to slow water discharge flow rate and allow sediment to settle out of waste water
- Fast and easy installation and trap replacement
- No permanent traps to clean or messy liners to replace
- Made in the USA

NEW! Trap-Eze™ BT Bottle Trap

The new Trap-Eze™ BT provides a convenient and easy to use bottle-style trap for permanent plumbing into the existing sanitary drain beneath the lab sink. The replaceable bottles feature excellent capacity and are fast and easy to replace.

- Complete kit provides instructions and customizable 1 1/2" size plumbing and connectors for convenient hard-plumbing (requires a minimum 16" of height between the centerline of the sewer tail pipe and floor of the cabinet)
- Complete system includes a 64 oz. standard size clear plastic bottle, a pre-assembled trap body, and the plumbing connections typically required to fit the plumbing used in most instances
