

GLOVE COMFORT

For **HAPPIER** Hands Today!

If you're tired of wearing gloves all day and having to deal with dry, cracked hands after use, then you need **Glove Comfort!**

Glove Comfort was designed to help lock-in your skins natural moisture while in the sometimes harsh environment of being stuck in a glove all day. Most lotions attempt to replace natural moisture with artificial moisture. That requires constant reapplying of lotion because your skin actually starts supplying less of its own moisture. With Glove Comfort you can eliminate this issue, keeping your hands fresh, moisturized, and **"happier"** during glove use.
