

# DustStation™ I

A high performance commercial grade dust collection system

## *Powerful suction that keeps your lab dust free!*

The DustStation™ I is a high performance, commercial grade dust collection system that features powerful suction, quiet operation and a unique and effective easy cleaning filtration system.

### Features and Benefits:

- Powerful 1/2 HP Continuous-Duty Motor, featuring dual 3" OD inlets that create 400 CFM suction
- Quiet air-tight seals and quiet motor keep noise below 72 decibels
- Large cabinet size (15" W x 15" D x 21" H) features high collection capacity, yet still fits beneath lab benches
- Filter system features 14 cotton-covered steel mesh elements with extended surface area for entrapping dust particles down to 1/2 micron size
- External shaker handle permits fast and effective cleaning of filter elements
