

Sanitary Dental Lathe

Fully Enclosed Sanitary Dental Lathe

Keep grinding dust out of your environment!

Buffalo Dental's Sanitary Lathe is a fully enclosed polishing lathe that contains grinding dust within a lighted and compact work cabinet.

Multiple rubber-shielded entry ports and clear viewing window allow a user full control and vision on whatever they are working on.

Features and Benefits:

- Powerful 1/2 HP, 3450 RPM motor with durable belt drive operates commercial-grade spindle for maximum torque
- Medium size (17" W x 12" D x 12" H, 55 lbs) keeps unit compact while providing adequate internal working space
- Multiple, rubber-shielded hand entry ports and clear viewing window for improved access and vision
- Easily attaches to dust collectors via 1 1/2" OD port on back of cabinet
- Simplified design features one-button operation to start lathe and illuminate the cabinet
- Unit comes complete with dual tapered spindles and removable dustpans
